CREATIVE DIGITAL MEDIA
Maths & English

ABOUT MAP EDUCATION

MAP Education offers students aged 11-16, who encounter obstacles in accessing traditional education, the chance to explore Art and Design, Music, and Digital Media. Alongside these creative disciplines, students are assisted in obtaining qualifications in Mathematics and English.

WHAT WE DO

APPROVED PROVIDER

Our education programme was set up in 2008 by MAP Charity as an LCC approved off site provider and offers Edexcel BTEC qualifications and are quality assured by Pearson Edexcel. We are happy to support schools and academies with Quality Assurance.

PROGRESSION OPPORTUNITIES

MAP Education courses are delivered in an environment that develops creativity, confidence and academic skills with the aim of readying learners to return to school or progress on to further education.

CREATIVE STUDY

Students have opportunities to experiment with graphics and illustration, digital photography and film, digital media, screen printing, DJing, painting, drawing and music production.

MATHS & ENGLISH

Within these creative subjects there are opportunities to embed elements of Maths and English, and we provide one to one assessor support to help students build upon these examples and then study and revise for their Maths and English qualifications and exams.

“ MAP has supported us with some of our most disengaged pupils and I have seen some real successes at MAP with the pupils that I have referred and supported. Pupils have developed their confidence, social skills and better engagement with education and learning. ”

PAULINE LOFTUS
*Inclusion Manager
North West Area
Inclusion Partnership*

MEETING NEEDS

At MAP we work closely with schools, homes and a range of supporting agencies to provide placements that meet a variety of needs:

- Short term KS3 placements with a focus on returning to mainstream education.
- Longer term placements studying BTEC qualifications and Functional Skills.
- Providing places for students who are between long term placements, changing schools or moving between providers.
- Supporting students who are attending education after a long period of disengagement.
- Supporting students who have or are being assessed for EHCP and specialist placements.

“ I can confidently say that you were the most successful provision, with two others unable to meet his needs or settle him into a pattern of engagement. His courses at MAP have set him up for Post 16 and his ability to find the headspace and focus on core subjects has enabled him to forge himself a pathway into an appropriate college course. ”

MICHELLE HARRIS
*Assistant Headteacher & DSL
Lawnswood School*

CREATIVE DIGITAL MEDIA & MUSIC

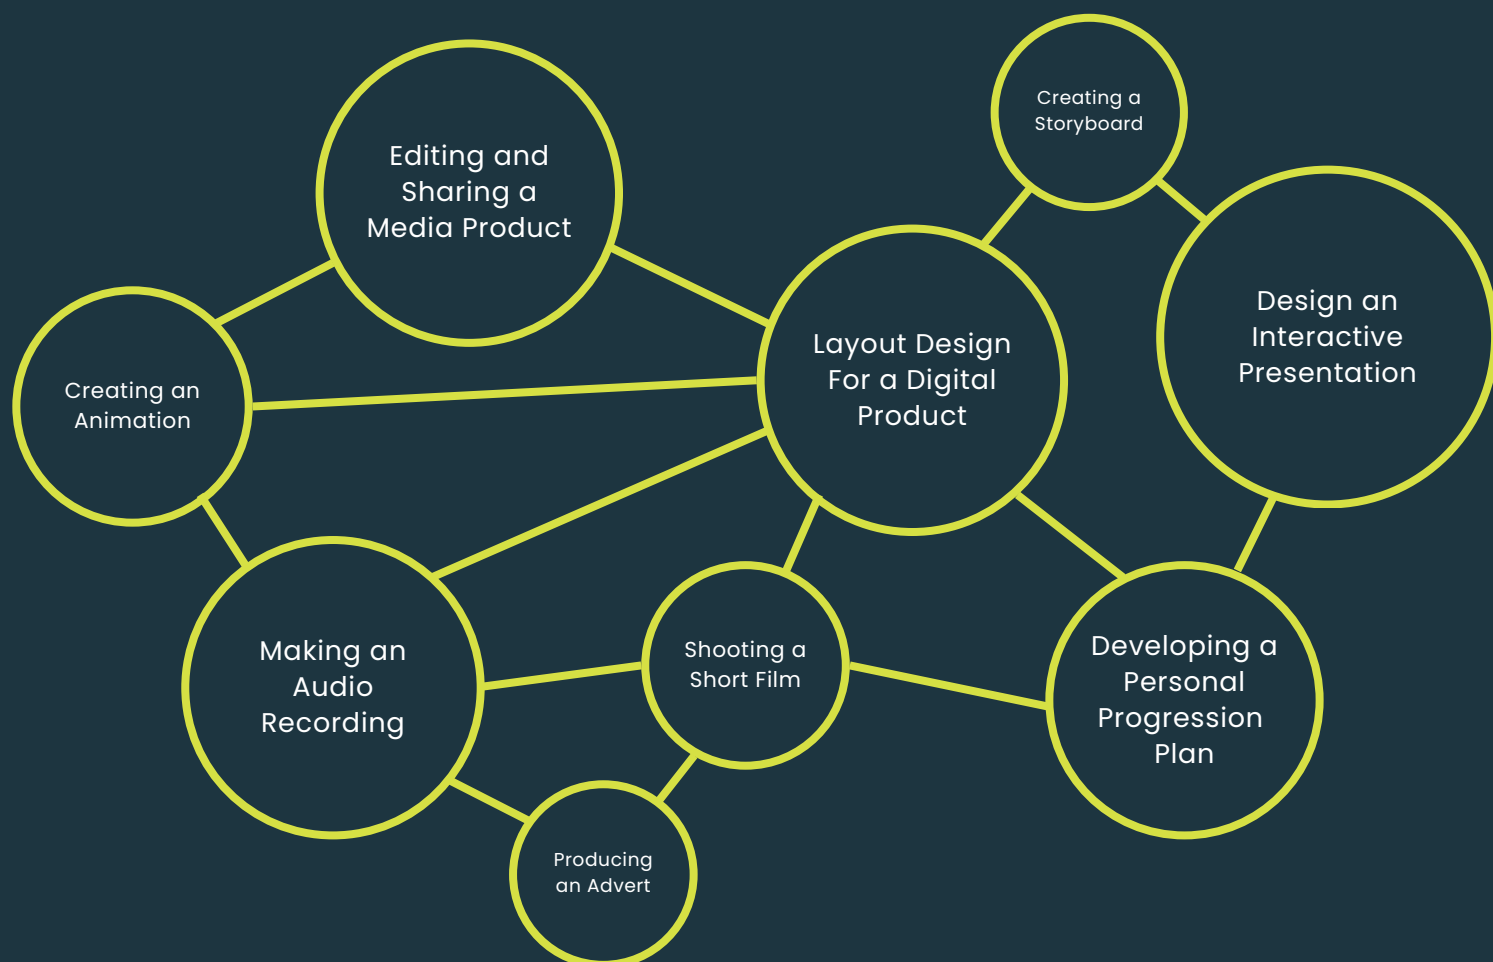

This course gives learners access to a wide range of opportunities in music production and creative media. Throughout the course, learners complete a BTEC in Digital Media production which comes in different sizes to suit each learner's individual requirements.

BTEC Qualification Title	Number of Study Hours	QUALIFICATION NUMBER
Pearson BTEC Introductory in Digital Media Level 1 Award	70 Hours	603/5010/6
Pearson BTEC Introductory in Digital Media Level 1 Certificate	180 Hours	603/0934/9

Short term courses are also available (10 – 30 hours) which will allow students to attend for sixth day cover or respite. These are primarily targeted at KS3 students, but can be accessed by KS4 if needed.

Below are some examples of the units that make up these qualifications and support a wide range of activities such as film editing, photography, audio production, beat making, lyric writing and DJing, as well as digital multimedia.

ART & DESIGN

On the art course, there is an exciting selection of activities and areas of study, ranging from garment printing and photoshop, through to more traditional techniques like oil painting and watercolour.

Throughout the course, learners complete a BTEC in Art and Design which comes in different sizes to suit each learner's individual requirements. Some examples of the units that make up these qualifications are presented in the graphic below.

BTEC Qualification Title	Number of Study Hours	QUALIFICATION NUMBER
Pearson BTEC Introductory in Art and Design Level 1 Award	70 Hours	603/5003/9
Pearson BTEC Introductory in Art & Design Level 1 Certificate	180 Hours	601/8542/9

Maths & English

Our Maths and English course builds on examples that are already found within the creative activities undertaken at MAP, providing a practical way for students to relate to the Maths and English activities that they sometimes struggle with. We give students one to one support in working through a GCSE study and revision programme, or a functional skills programme – both of which use a range of computer based, paper based, and practical activities.

MAP Education understands the importance of GCSE exams and provides individual support for learners during mock and actual exam periods, to ensure that learners feel confident and prepared. For learners that cannot access mainstream GCSE exams, we offer the certificates below.

Qualification Title	Number of Study hours	Qualification Number
Edexcel Maths Functional Skills		
Entry 1	55 hours	603/4269/9
Entry 2	55 hours	603/4265/1
Entry 3	55 hours	603/4266/3
Level 1	55 hours	603/4267/5
Level 2	55 hours	603/4268/7
Edexcel English Functional Skills		
Entry 1	55 hours	603/4286/9
Entry 2	55 hours	603/4287/0
Entry 3	55 hours	603/4288/2
Level 1	55 hours	603/4289/4
Level 2	55 hours	603/4290/0

MAP Education Graduates

A number of our graduates and alumni have returned to MAP Charity as volunteers, and for apprenticeships, demonstrating the positive impact of their experiences here.

Our work with our young people doesn't end when they finish at MAP. Opportunities in creative industries are often sent to us and these are regularly shared with our graduates.

CIEAG & Raising Aspirations

As well as the education programme, MAP Charity also carries out a wide range of arts and music activities with professional and developing artists, creatives and university students. These other activities are of considerable value to the education programme as they offer the students a unique experience that raises aspirations and highlights options for progression.

At MAP Charity, we are keen that no learner is left behind (NEET) at the point of leaving school, and therefore work hard to ensure that Year 11 learners, have a progression route before they leave us. We support with careers advice, making applications to college, and attendance to interviews.

Making a Referral

If you would like to come for a visit, or arrange a trial day then please get in touch:

Email: info@mapcharity.org

Telephone: 0113 246 8468 / 07551 408 821

We are happy to speak about how we can meet the needs of learners and can send through more information, the learner handbook, and referral paperwork. There is also further information available on our website at mapcharity.org

WHAT DO OUR LEARNERS THINK?

“ When I’m at MAP, I feel safe and I know that when I am struggling, staff will help me. Before I came to MAP I would always get into trouble. Even school can see the difference and I can cope there for longer. I know now how important my education is and I’m trying harder to do better.

Year 9 MAP learner ”

“ At MAP I feel that I am accepted for who I am. I am never judged and even when I’ve had a bad day, I know that they will welcome me back the next time. Being at MAP is good for my mental health.

Year 11 MAP learner ”

“ MAP changed my life. I cannot stress that enough. I don’t know where I would have ended up if it wasn’t for this place. The best schools send their kids to MAP. I’m grateful to my school for making the right choice for me.

MAP Graduate ”
